

FOR IMMEDIATE RELEASE

“Westside Marketing & Communications Company Takes On Major Task In Helping To Create Jobs & Build Businesses”

(Chicago, Illinois) – Elevate Services, located in the Austin community will host a “*Construction Hiring Fair*,” on Friday, October 25, 2019, at the Father Augustus Tolton Peace Center – Catholic Charities. Not only will there be companies conducting on-site interviews with local residents, but employment agencies and job training agencies will also offer paid internships and opportunities to enroll in training programs that will ensure a career at a higher paying salary. Social service organizations will also be at this event. We are not only looking to create space for employment, but this hiring fair will also have a wrap-around-services environment as we work to help meet all of the participants' needs, says Tina Augustus, President & CEO of Elevate Services.

Elevate Services has partnered with Catholic Charities, and KRA, a workforce development agency, also located on Chicago’s westside, and the Austin Chamber of Commerce, to help build relationships between local construction companies, general contractors, and other companies with job seekers. “In helping businesses and the community connect, one of our company goals,” says Augustus, “is to help increase the number of times that the dollar replicates itself in the Black communities.”

“In order to accomplish this goal, we must create an environment that will allow it to happen. We must take ownership in making sure that it happens.”

Elevate Services is a Communications and Resource Development company. Our mission is to increase the presence of businesses within a particular area by connecting people with the same interest to them and raising the awareness of those businesses to others. Elevate Services provides tools to help corporations and non-profit organizations, increase productivity, develop in economic growth and enhance their programs.

The company combined has more than 35 years of experience in communications, resource development, and information technology. Through a comprehensive approach, Elevate Services will conduct an in-depth assessment of your company’s best practices. That is a method or that has consistently shown superior to those achieved with other means, and that is used as a benchmark. A plan of action will then be presented to help your company reach its goals.
